Education

Master of Science, Business Analytics | *University of California, Irvine — Paul Merage School of Business* | Irvine, CA | Sep 2025 – Jun 2026

- Coursework: Deep Learning & Applications, Machine Learning, Predictive Modeling, Data & Programming for Analytics, Customer & Social Analytics, Business Data Management, Foundations of Marketing Analytics, Statistics for Data Science, AI Impact on Firms/Society/Economy

Bachelor of Science, Business Administration — Computer Information Systems | *California State Polytechnic University* | Pomona, CA | Aug 2023 – May 2025

- Graduated with honors · Dean's List (Spring, Summer, Fall 2024) · President's Honor Roll (2024–2025)
- Coursework: Database Design & Development, Object-Oriented Programming, Cloud Infrastructure Design, Systems Analysis, Web & Mobile Analytics, Location Analytics, Business Intelligence & Reporting

Experience

Report & Documentation Lead | *UCI Paul Merage School of Business / InsureMEP* | Irvine, CA | Jan 2026 – Jun 2026

- Served as Report & Documentation Lead on a 5-person MSBA consulting team engaged by InsureMEP, a proptech/insurtech startup, to prototype AI-powered automation for building asset onboarding.
- Authored all project deliverables: Statement of Work, EDA findings, evaluation reports, technical architecture documentation, and the 14-page final client report submitted to InsureMEP leadership and UCI faculty.
- Coordinated stakeholder communication across 10+ documented client meetings with InsureMEP's CEO, technical partner, and UCI administrators.
- Contributed to EDA on 3,500+ asset obligation records across HVAC, Fire/Life Safety, Electrical, and Plumbing systems.
- Team built an AI onboarding workbench using Gemini 2.0 Flash, Q-learning RL, spaCy, Streamlit, GraphQL, and Supabase; improved image classification from 78% baseline to >85% accuracy; reduced onboarding time from 40–80 hours to 2–4 hours per building.
- Live workbench: insuremep-ucicapstone.streamlit.app

Social Media Digital Marketing Intern | *Wonder Women Tech* | Long Beach, CA | May 2024 – Aug 2024

- Assisted with social media strategy, content planning, creation, scheduling, community management, and engagement across platforms including Instagram.
- Supported digital marketing initiatives for a national organization serving women and non-binary individuals in technology.

Technical Projects — UCI MSBA (Newest to Oldest)

AI Rental Market Intelligence Dashboard | *Deep Learning & Applications · Team of 4* | Spring 2026

- Built an autonomous LLM-powered rental monitoring system: RentCast API live listings, rule-based deal scoring (\$/sqft vs. ZIP median), and GPT-4o-mini market briefs running every 15 minutes via APScheduler.
- Agentic pipeline (Fetch → Score → Store → Detect → Analyze → Update) with zero user intervention; separated scoring logic from LLM narration to eliminate hallucination risk.
- Tech stack: Python · GPT-4o-mini · RentCast API · SQLite · Streamlit

Salary Premium of AI Skills in Supply Chain | *AI Impact on Firms, Society & Economy · Team of 5* | Spring 2026

- Analyzed 123,849 LinkedIn job postings (2023–2024); found AI-skill salary gap of \$53,927 (Welch's $t = 22.72$, $p < 0.001$, Cohen's $d = 1.04$).
- Built binary AI-skill indicator via keyword matching; normalized salary formats; applied regression to control for seniority.

Understanding Premium Conversion on High Note — Causal Analytics | *Customer & Social Analytics* · Team of 4 | Winter 2026

- Applied PSM, logistic regression, and RDD to isolate causal effect of peer networks on free-to-premium conversion; 9.1 pp treatment effect ($p < 0.001$), OR = 1.134 per additional premium friend.

Book Haven Online Bookstore — Database Design | *Business Data Management* | Winter 2026

- Designed fully normalized relational database (3NF): 5 entities, complete ERD, logical data model, and 5 business-driven SQL queries.

Predicting Employee Job Satisfaction — IBM HR Analytics | *Machine Learning* · Team of 4 | Fall 2025

- Applied KNN and Random Forest classifiers to 1,470 IBM HR records; Random Forest: 61.9% cross-validated accuracy. Preprocessing: SMOTE, one-hot encoding, grid-search tuning.
- Identified overtime exposure and promotion stagnation as key dissatisfaction drivers.

Shaping the Future of Our Industry — Marketing Analytics | *Foundations of Marketing Analytics* | Fall 2025

- Conducted k-means clustering and marketing mix analysis to segment customers and identify high-value acquisition channels.

Predicting Hit Songs — Spotify Audio Features | *Data & Programming for Analytics* · Team of 4 | Fall 2025

- Trained Logistic Regression (67%), Decision Tree (68%), and Random Forest (75%) on 2,018 Spotify tracks using 13 audio features with stratified 70/30 split.

Sun Country Airlines — Digital Strategy Case Narrative | *Foundations of Business Analytics* | Summer 2025

- Analyzed Sun Country Airlines' digital transformation; evaluated Ufly Rewards, e-commerce performance, and marketing channel effectiveness.

F1 Pit Stop Strategy Analysis | *Statistics for Data Science* | Summer 2025

- Applied statistical inference and regression to multi-season F1 pit stop data; found strategy timing correlates more strongly with position gain than raw stop duration.

Technical Projects — Undergraduate & Personal (Newest to Oldest)

KittyEclipse Robotic Therapy Cat | Personal Project | Dec 2024 – Present

- Programmed emotional response behaviors in Python and C++ with touch/sound sensor integration; integrating software with 3D-printed hardware components.

NASA Space Apps Challenge — Food Desert Mapping Tool | Hackathon | Oct 2024

- Built geospatial web app in HTML/CSS and Leaflet.js visualizing food deserts using NASA and U.S. Census data; added community reporting features for policymaker use.

Hivestorm Cybersecurity Competition | Cal Poly Pomona · Team of 4 | Oct – Nov 2024

- Secured vulnerable Windows/Linux systems in a 4-hour competition; removed malware, patched exploits, implemented NIST-based access controls.

Women in Tech Website Development | Cal Poly Pomona · Team of 3 | May 2024 – May 2025

- Co-led development of WIT's first website in Node.js/HTML/CSS; managed 3-person team through Figma prototyping, GitHub workflows, and ADA-compliant feature launches for 200+ members.

QuestionGenie AI Learning Assistant | Team of 4 | May – Aug 2024

- Built frontend for an AI study tool using HTML/CSS/JS with Ollama API integration; contributed to mobile-friendly UI/UX design.

Supply Chain Analysis — New Vehicle Model Concept | Cal Poly Pomona | Jan – May 2024

- Analyzed customer needs to design a new car model concept; proposed production improvements projected to increase efficiency by 15–20%. Created cost-benefit reports and presentations.

Etsy Business Strategy Analysis | Cal Poly Pomona | Aug – Dec 2023

- Conducted SWOT analysis evaluating Etsy's strategy, financial health, and competitive positioning; delivered 15-minute presentation with strategic recommendations.

Leadership and Activities

- Women in Tech (WIT) | Active Member & Website Co-Lead | Spring 2024 – Spring 2025
- Software Engineering Association (SEA) | Member | Summer 2024 – Spring 2025
- Management Information Systems Student Association (MISSA) | Active Member | Spring 2024 – Spring 2025

Technical Skills

- **Programming:** Python (pandas, NumPy, Matplotlib, Scikit-learn, Seaborn, TensorFlow, Plotly), SQL, Java, C++, Node.js, HTML/CSS/JS
- **AI / ML:** RL (Q-learning), LLMs (Gemini 2.0 Flash, GPT-4o-mini), spaCy, image classification, agentic workflows, KNN, Random Forest, Logistic Regression, SMOTE, PSM, RDD
- **Data Engineering:** ETL pipelines, GraphQL API, Supabase, SQLite, PostgreSQL, ERWIN Data Modeler, Microsoft Access
- **Cloud & Platforms:** AWS (Spark, Hadoop), Streamlit, GitHub, Jupyter Notebook, Google Colab, Visual Studio Code
- **Analytics & BI:** Tableau, Microsoft Excel (PivotTables, VLOOKUP, INDEX-MATCH), Google Data Analytics, Google Tag Manager
- **Cybersecurity & Systems:** Cisco Packet Tracer, Linux/Windows system hardening, Oracle VirtualBox, NIST frameworks
- **Web / GIS:** Leaflet.js, ArcGIS, geospatial modeling, ADA-compliant front-end development, API integration
- **Design / Other:** Figma, Canva, CapCut • Fluent in Urdu and Hindi
